PROFESSIONAL SUMMARY

Pre-final year AI & ML Engineering student with hands-on experience building AI-powered applications, LLM-integrated systems, Computer Vision solutions, and Deep Learning models. Passionate about transforming ideas into practical, real-world AI solutions through a strong builder's mindset and continuous learning. Actively seeking opportunities to contribute, grow, and develop impactful AI systems as an aspiring AI Engineer.

SKILLS

Technical Skills: Python, C++, SQL, Machine Learning, Deep Learning, Generative AI, NLP, LLMs, RAG, Data Structures & Algorithms, DBMS.

Libraries & Frameworks: Scikit-learn, MediaPipe, OpenCV, Pandas, NumPy, Flask, FastAPI, React, Tailwind CSS.

Tools & Platforms: Git, GitHub, MongoDB, Streamlit, Jupyter Notebook, VS Code, Vercel, Render.

Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Continuous Learning, Attention to Detail.

PROJECTS

AI-Powered Real-Time Gym Coach

Technologies: Python, Streamlit, MediaPipe, OpenCV, Groq LLM, Text-to-Speech, SQLite, Git.

- Developed a real-time pose detection system using MediaPipe & OpenCV to track and analyze body movements during workouts.
- Integrated Groq LLM to generate personalized AI coaching feedback based on exercise performance.
- Implemented Text-to-Speech (TTS) for real-time audio instructions enhancing user experience.
- Designed and managed workout history and progress tracking using SQLite database.
- Built interactive UI using Streamlit enabling seamless real-time video processing via WebRTC.

Silent Error Detector — AI-Powered Code Debugger

Technologies: React, Tailwind CSS, FastAPI, MongoDB, Google Gemini API, JWT, Python.

- Built a full-stack web application with Monaco Editor (VS Code editor in browser) for writing and executing Python code.
- Integrated Google Gemini API to provide beginner-friendly AI explanations of runtime and logical errors.
- Implemented secure JWT authentication with user registration, login and submission history.
- Developed Python subprocess execution engine to safely run user code with timeout protection.
- Stored user submissions and AI feedback in MongoDB for history tracking.

EDUCATION

GH Raison College of Engineering and Management
Bachelor of Technology, Computer Science and Engineering (AI & ML)

Pune, Maharashtra
2023 – 2027

Late R.K Kakani Junior College
Higher Secondary

Malegaon, Maharashtra
2023

CERTIFICATIONS

- **Generative AI Explained**— NVIDIA (May 2026)
